

Call for Papers

Workshop on Digital Identity Management

22nd November 2012, Curitiba – Paraná - Brazil

- Co-located with the XII SBSeg 2012-

Identity management (IdM) is an integrated system of policies, business processes and technologies that enables organizations to deal with the identities of its users. Identity management also involves issues related to certification and management of the lifecycle of digital identities, together with the legal aspects.

Identity management is an active research topic and is tending to be for many years. This tendency is because of many different issues to be considered, such as: the ease of use of systems, user privacy, strong security, single sign on, total cost of ownership, user profiling and retention of users by service providers, scalability, fine grained access control, personalization of services and interoperability.

The Second Workshop on Identity Management (WGID) aims to be a forum for discussions and technical presentations of recent works and / or in progress about the state of art in the identity management. In addition, we seek to also identify the challenges of the research in this area and enable the mapping of research groups.

TOPICS

Typical but not exclusive topics of interest include:

- Federated Mobile Access and Mobile Certification
- Attribute Aggregation
- Identity Management Anonymity Challenges
- IdM Reference Model and Frameworks
- Identity Management Audit
- Single Sign On
- Digital Certification

- Attribute Certificate
- Attribute Based Access Control (ABAC)
- Trust Management in IdM
- Identity Management and Cloud Computing
- Access & Identity management (AIM)
- Identity Management in Electronic Government
- Identity Management in Grid Computing
- Identity Management and the Internet of Things
- Federated IdM
- Interoperability in IdM systems
- Level of Assurance in IdM
- Identity Management Privacy Challenges
- Social Networks and Identity Management
- Brazilian Identity Card (RIC)

WORKSHOP FORMAT

The WGID will be held on November 22, 2011 and will include presentation of invited talk, articles accepted for publication and research projects related to identity management.

INSTRUCTIONS TO AUTHORS

Submitted papers should describe relevant research, experiment reports, case studies and work in progress. Articles can be submitted in Portuguese or English, only in PDF format. The text should be formatted using the SBC template. Papers have a limit of **10 pages**, including figures, tables, references and appendix.

Papers will undergo a review process by the Program Committee. Accepted papers must be presented by one of the registered authors in order to be published in the Proceedings of the 12th SBSEG.

IMPORTANT DATES

Paper submission: August 17 (firm deadline)

Notification of acceptance: August 30

Final version due date: September 2

Organizing Comitee

General Chairs (SBSEG)

Aldri dos Santos,UFPR

Altair Santin, PUCPR
Carlos Maziero, UTFPR

Workshop Chairs

Michelle S. Wingham, UNIVALI
Ricardo Custódio, UFSC
