Wenke Lee, Professor

School of Computer Science, College of Computing
Georgia Institute of Technology
801 Atlantic Drive, Atlanta, GA USA
<http://wenke.gtisc.gatech.edu>

Dr. Wenke Lee received his Ph.D. in Computer Science from Columbia University in the City of New York in 1999. Dr. Lee works in systems and network security. His current research projects are in the areas of botnet detection, malware analysis, virtual machine monitoring, and Web 2.0 security and privacy, with funding from NSF, DHS, and DoD. Dr. Lee has published over 100 articles with more than 20 of them cited more than 100 times, giving him an h-index of 51. In 2006, Dr. Lee co-founded Damballa, Inc., a spin-off from his lab that focuses on botnet detection and mitigation.

Christof Paar, Professor

Dept. of Electr. Eng. and Information Sciences
Ruhr-Universität Bochum
D - 44780 Bochum, Germany
<http://www.crypto.ruhr-uni-bochum.de>

Dr. Paar got his PhD in 1994 at the Institute for Experimental Mathematics of the University of Essen. From 1995 to 2001 he worked at the ECE Department, Worcester Polytechnic Institute, Massachusetts, USA, and since 2001 he is the Chair for Embedded Security, ECE Department, Ruhr-Universität Bochum, Germany. From 2004 to 2007 he served as Director of the Horst Görtz Institute for IT Security at Ruhr-Universität Bochum, and since 2009 he is an Affiliated Professor at the University of Massachusetts at Amherst. He has more than 150 peer-reviewed publications in journals and conferences plus 3 patents in applied cryptography. He gave invited talks at MIT, Yale, Stanford University, University of Illinois, IBM T.J. Watson Labs and Sun Labs.
